| 1.       | In the old syllabus of Civil Engineering, in Section-1, there is Part-D also mentioned in the syllabus but in the recent changed format, Part-D is not mentioned in the section-1 of the Civil Engineering syllabus.  | It is clearly mentioned in the uploaded Format of Model Question paper that question no-1 covers whole syllabus of section-1. Obviously Part-D is included. |
| 2.       | Electrical Engineering section-II consist of 3 parts (Part-A, B &C). For question no 4 which is compulsory and contain all syllabus of section 2. But we choose either Part B or Part C. Thus for question no 4 which is compulsory we have to study whole Part B and Part C to answer. | It is mentioning that question no 4 covers whole syllabus of section-II of Part A & either of Part B or Part-C.   |
