But, here, in place of bicarbonate ion (HCO_3^-), only bicarbonate (HCO_3) has been mentioned in option 'A' and all other options are also incorrect.</p> <p>Out of three buffer systems i.e. Bicarbonate Buffer system, the phosphate buffer system and the protein buffer system, the main</p>

Series-A		Series-B		Series-C		Series-D		Remarks
Question No.	Answer	Question No.	Answer	Question No.	Answer	Question No.	Answer	
								buffering system of human blood is the Bicarbonate buffer system. The bicarbonate buffer system is represented as- $\text{CO}_2 + \text{H}_2\text{O} \rightleftharpoons \text{H}_2\text{CO}_3$ $\rightleftharpoons \text{H}^+ + \text{HCO}_3^-$ <p>Since, the answer is in the form of equation. In the option 'A' there should have been a negative charge on HCO_3. But it is lacking. Hence option 'A' is incorrect. Other options are incorrect options. Therefore the question should be deleted.</p>
